Narcotics - Manufacture/Distribution of Methamphetamine
Case # A5008258

The Lancaster County Sheriff's Office is investigating a Methamphetamine lab site discovered near 9750 block of NW 84th on Sunday, September 25, 2005 at 12:30 p.m. Sheriff's deputies were called to the area after a local farmer discovered the items and believed they were associated with narcotics . The responding deputy determined the items were consistent with components used to manufacture methamphetamine. The Lincoln-Lancaster County Metro Clandestine Laboratory Team comprised of sheriff's deputies and Lincoln Police officers responded to the scene to dismantle the lab. Members of the Lancaster County Health Department also responded to assist and transport the waste.

Several components and precursors utilized in the manufacturing of methamphetamine were present at the site. It was determined the laboratory could have produced in excess of 13 grams of methamphetamine with an approximate street value of \$1300.00. The lab appeared to have been there for approximately four to six weeks.

No arrest have been made however, the investigation is still ongoing. Anyone with information regarding this methamphetamine laboratory is asked to call the Sheriff's Office at 441-6500 or Crime Stoppers at 475-3600.
